Validator Regular Expression I18 FAQ

Is it possible to use special characters (like german "Umlaute") in an regular expression..

I tried this:

```
<constant>
  <constant-name>name</constant-name>
  <constant-value>^[\\-\\'\\\"\\.\\ a-zäöüßáéíúóàèìùòâêîôñA-ZÄÖÜÁÉÍÓÚÀÈÌÒÛÑ]+$</constant-value>
</constant>
```

Answer

Samuel Opoku-Boadu answers:

```
<global>
  <constant>
    <constant-name>alphanumeric</constant-name>
    <constant-value>^[a-zA-Z0-9\\.ü\\Ü\\ä\\Ä\\ß\\ö\\Ö\\-]*$</constant-value>
  </constant>
  <constant>
    <constant-name>alphanumericSP</constant-name>
    <constant-value>^[a-zA-Z0-9\\.ü\\Ü\\ä\\Ä\\ß\\ö\\Ö\\-\\ ]*$</constant-value>
  </constant>
</global>
```
