ValidatorResources

Up to Validator

To anyone who might need it, I gave a presentation on the Validator at the Struts Atlanta group last week.http://sourceforge.net/project/showfiles.php? group_id=49385&release_id=159118

It's also available from the Struts Atlanta Site.

Let me know if you want the powerpoint to swipe any of the slides out of it. Email me at chuckcavaness at yahoo.com

This article contains a section where the Validator framework is used for a Swing application. http://www.devx.com/Java/Article/29392
