

ValidatorStandalone

Up to [ValidatorFaq](#)

I would like to use validator stand alone - How Do I Do It?

Answer(s)

The O'Reilly book 'Jakarta Struts' by Chuck Cavaness has a small section on the subject starting on page 279 that might be of help. I've never tried it though...

-Jeff Kyser

The new Validator version 1.1.3 contains an example on how to use Validator outside of Struts.

direct link to svn repository : <http://svn.apache.org/viewcvs.cgi/commons/proper/validator/trunk/src/example/org/apache/commons/validator/example/>
