

EnteringIncubator

A few selected [Apache Developer Resources](#):

- http://incubator.apache.org/incubation/Process_Description.html
- <http://www.apache.org/dev/committers.html>
- <http://www.apache.org/dev/contributors.html>
- <http://www.apache.org/dev/mirrors.html>
- <http://www.apache.org/LICENSE.txt>

Emails to mine from:

- <http://marc.theaimsgroup.com/?l=incubator-general&m=106328310521969&w=2>
- <http://marc.theaimsgroup.com/?l=incubator-general&m=106319348200802&w=2>

How ASF Membership Works (slightly off topic)

- <http://nagoya.apache.org/eyebrowse/ReadMsg?listName=community@apache.org&msgNo=2002>

How Releases and Builds are defined:

- <http://marc.theaimsgroup.com/?l=incubator-general&m=106421288104188&w=2>
- Also [ReleaseManager](#)

Other useful Incubator docs:

- Voting: <http://incubator.apache.org/learn/voting.html>
- The Apache Way: <http://incubator.apache.org/learn/theapacheway.html>
- New Committers: <http://incubator.apache.org/learn/newcommitters.html>

Things you need:

- cvs (projects and modules, SSH issues) ** <http://www.apache.org/foundation/cvs.html>
- mailing list (-dev, -user, -cvs, moderator process: convention for committers to deal with it)
- Bugzilla/Scarab/Jira ** <http://nagoya.apache.org/bugzilla/queryhelp.cgi> ** <http://nagoya.apache.org/bugzilla/query.cgi> ** http://nagoya.apache.org/bugzilla/enter_bug.cgi ** <http://scarab.werken.com/scarab/issues> ** <http://jira.werken.com/>
- Wiki
- Web publishing (Anakia, Forrest, Maven, etc)
- Building (Ant / Maven / Gump)
- Gump ** nightly Apache-wide builds ** where are docs? (ask Sam)
- Docs (XML, HTML, directory conventions: docs and xdocs)

Useful email addresses:
