

CategoryCategory

A category is a [WikiName](#) that exploits [WikiWiki](#)'s reverse linking. If you click on the title of a category page, you'll get a list of pages belonging to that category. To get a list of all categories, click above on the CategoryCategory title.

Here is a list of all categories known to this wiki:

<<PageList(^Category.*)>>

Here is a list of all pages containing the [CategoryCategory](#) wiki tag:

<<FullSearch>>

To be consistent with the C2 category scheme, all categories start with the word "Category". For more information, see Wiki: [AboutCategoriesAndTopics_''](#).
