To whom it may engage...

This is an automated request, but not an unsolicited one. For more information please visit <http://gump.apache.org/nagged.html>, and/or contact folk at general@gump.apache.org.

Project depot-update has an issue affecting its community integration. This issue affects 6 projects, and has been outstanding for 14 runs. Project State : 'Failed'

The following are affected:

- antworks-importer-with-depot : Autodownload and import ant build.xml's.
- depot-update : Depot -- repository tools and more...
- depot-update-ant-sample-httpclient : Depot -- repository tools and more...
- depot-update-ant-sample-jdk : Depot -- repository tools and more...
- depot-update-ant-sample-vfs : Depot -- repository tools and more...
- depot-update-test : Depot -- repository tools and more...

Full details are available at:

<http://brutus.apache.org/gump/public/depot/depot-update/index.html>

That said, some snippets follow:

The following annotations were provided:

- DEBUG- Sole output [depot-update-0.1-gump-04102004.jar] identifier set to project name
- DEBUG- Dependency on ant exists, no need to add for property ant.home.
- INFO- Failed with reason build failed
- INFO- Failed to extract fallback artifacts from Gump Repository

The following work was performed:

http://brutus.apache.org/gump/public/depot/depot-update/gump_work/build_depot_depot-update.html

Work Name: build_depot_depot-update (Type: Build)

State: Failed

Elapsed: 6 secs
