## Cocoon compared with other technologies

- [CocoonFormsJSF](#)
- [Cocoon Control Flow \(MVC+\) vs MVC \(like Struts\)](#)
- [XMLFormsStruts](#)

*Note: XMLForms is deprecated, [CForms](#) is the way to go. A new comparison would be fine and needed.*

- [Zope and Cocoon: A Comparative Review](#) - Written by Zope "partisans" but they raise good points. Note: Comparison is done between a Web Publishing Framework integrated with CMS ([Zope](#)) and a Web Publishing Framework "only" ([Cocoon](#)), so a bit unfair. Here some comments by Cocoon users:
