

CocoonMailingLists

Mailing lists are moving!

The Cocoon mailing lists will soon change to use the new *cocoon.apache.org* domain name, as Cocoon is now a top-level Apache project.

More info will be posted here in due time.

The names will change as follows:

```
cocoon-users@xml.apache.org -> users@cocoon.apache.org
cocoon-dev@xml.apache.org -> dev@cocoon.apache.org
cocoon-docs@xml.apache.org -> docs@cocoon.apache.org
```

cocoon- mailing lists

There are various [Cocoon mailing lists](#) (*cocoon-docs*, *cocoon-dev*, *cocoon-users*, *cocoon-cvs*). See also [Apache XML mailing lists](#)

The [archives](#) of the Cocoon Documentation mailing list (and other Cocoon lists) have much useful discussion. Please glean tidbits from the archives and add to this wiki.

Note:

The Cocoon website mail-archives.html is not yet updated to reflect the CVS addition of the new *cocoon-docs* list. In the meantime see [MARC archives](#)
