CocoonUserGroupWellingtonNZ

Con is a Cocoon user in Wellington. Any other Wellingtonians out there using Cocoon?

ChrisMcKay is a web developer who uses Cocoon as a framework for a site. He is currently battling Java JAR hell while upgrading the site to Java 1.4 and Tomcat 4.1. He lives in Auckland though but supports the Hurricanes, is that OK?

- yes you get bonus points for supporting the 'canes, Chris. Maybe an NZ-wide group would be a better idea than this page?
