

GT2007Hackaton

See <http://www.cocoongt.org/> for official Cocoon [GetTogether](#) 2007 information! See [GT2007Hotels](#) for info on the Hotels, Rome is a very touristic place and October is high season.

GT2007 Hackaton Day 1 Notes

GT2007 Hackaton Day 2 Notes

Pictures

(hopefully most of) this year's pictures will be at <http://flickr.com/photos/tags/cocoongt2007> last year's pictures are at <http://flickr.com/photos/tags/cocoongt2006>

Links

It'd be cool to put up links at <http://del.icio.us/tag/cocoongt2007> : things discussed during the GT, links to presentations and blogs, etc.

News and updates

On October 3rd and October 4rd, the days before the Cocoon [GetTogether](#) 2007, there is a Hackaton foreseen at the Bioparco Foundation building in Villa Borghese, in the center of Rome.

The main idea is to use this page to hack together some agenda for both days, please make this a joint effort. We will have a huge room, which can hold easily up to 80 people.

The Hackaton will start on both days at 9:00 AM and ends around 18:00. There'll be food on both days.

Infrastructure and logistics

[SimoneGianni] There will be:

- food
- drinks
- long tables
- [WiFi](#) access
- Some hubs for wired access (bring your own cable!!)
- Plenty of power outlets (1.5 per participant)
- Large whiteboard

Other things needed?

- a beamer
- projector

Hacking ideas

- [ReinhardPoetz] [BOF](#) Starting a Cocoon marketing offensive
- [ReinhardPoetz] [BOF](#) Java Sitemaps
- [ReinhardPoetz] I want to work on the servlet-service-fw so that the Wicket servlet is served with the environment it needs.
- [ReinhardPoetz] Discussion: What needs to be done, to really get a minimal Cocoon core? (I don't need dozens of components but they get loaded by default.)
- [ReinhardPoetz] 2 short demos: How to publish docs? How to release a module?
- [JeremyQuinn] Plan the port of Cocoon Forms from Dojo 0.4.n to the new 0.9.n (unfortunately lots of the API we used has gone)

- [GrzegorzKossakowski] I'm thinking about cleaning up dependencies in Cocoon core (somehow related to the Reinhard's discussion proposal)
- [GrzegorzKossakowski] What about RESTful Cocoon Forms? What about creating really rich forms with JavaFX?
- [LucaMarrocco] I'm interested to integrate Wicket and Cocoon
- [DanielFagerstrom] Cocoon - OSGi integration
- [LarsTrieloff] Integrating Cocoon and [Tika](#)
- [LarsTrieloff] Integrating Cocoon and [CouchDb](#), involves JSONGenerator and JSONSerializer
- [VadimGritsenko] I'll bring presentation [Cocoon 2.2 Classic](#) (outlines some points on migration of existing Cocoon 2.1 applications to 2.2) and can show it.

People attending

Please add your name if you're planning to come. Also note which days you'll be there: Wednesday 3rd or Thursday 4th.

<i>Name</i>	<i>Wednesday 3rd</i>	<i>Thursday 4th</i>	<i>Hotel</i>
ReinhardPoetz	yes	yes	any recommendations?
GrzegorzKossakowski	yes	yes	Best Western Rivoli (sharing room with LeszekGawron)
VadimGritsenko	yes	yes	Villa Mangili
SimoneGianni	yes	yes	My own house
GianugoRabellino	yes	yes	TBD
AndrewSavory	yes	yes	TBD
LucaMarrocco	yes	yes	TBD
DanielFagerstrom	yes	yes	TBD
CarstenZiegeler	yes	yes	TBD

Getting there
