

GlauberRibeiro

Hello, I'm a perl/java/ruby/tcl/c developer, and novice Cocoon user. I was born in Brazil way back in the Stone Age (1965), and am living in the USA, in the Chicago area, since 1991.

I was one of the original developers of <http://www.autocheck.com>, which has now passed to more competent hands! I still help around a little.

I [play the flute](#) when i'm not programming. Baroque flute is my current passion and frustration.

I plan to use Cocoon in a new internal java application i'm writing.

Here's a picture of my daughter Laura and me (<http://images.snapfish.com/33%3A62%3A%3A323232•fp47%3Dot%3E232%3A%3D765%3D95%3C%3DXROQDF%3E2323455756987ot1lsi>).
