

StavrosKounis

Building cocoon powered web sites.

We call our mechanism (project) "Othello" and allow use to create template-base web site that use some cocoon capabilities.

Cocoon documentation

Some personal notes about problems i have to solve until now

HowTo

XML fragment from data base came escaped

<http://marc.theaimsgroup.com/?l=xml-cocoon-users&m=108211213006410&w=2>

Run cocoon demo anywhere (windows)

JRE budled

<http://marc.theaimsgroup.com/?l=xml-cocoon-users&m=109033265724236&w=2>

Pass a variable from flowscript into cfrom

<http://marc.theaimsgroup.com/?t=109878303500002&r=1&w=2>

Wiki pages
