

BoardReports 20080313

Excalibur Quarterly Report for March 2008

This quarter was the quietest one - nearly zero activity, neither in the mailing lists nor in subversion, and no releases.

There are no known issues.

LEGAL The code of Excalibur was checked; no crypto software is contained/developed at Excalibur so there is no action required with regards to the Export Notification Policy.

Best regards,

Carsten Ziegeler on behalf of the Excalibur PMC
