

JakartaBoardReport-April2011

Jakarta status report, April 2011. There are no issues requiring board attention at this time.

General

We voted to move Jakarta Regexp to the Apache Attic. The Attic PMC has been informed and we are in the process of completing the move.

Releases

- None

Subproject news

BCEL

A few bug fixes were committed and some Bugzilla items raised.

BSF

No changes or notable activity this quarter.

Cactus

Couple of posts to the user list, otherwise quiet quarter.

JCS

No notable activity this quarter.

JMeter

Generally active user list. Quite a few fixes and enhancements have been added to the code.

Regexp

Jakarta Regexp was voted to retire to the Apache Attic.
