JörnNettingsmeier

Hi! I'm a freelance systems administrator and web developer with a strong dislike of closed source software. I've been a Lenya committer since 2006. You can reach me at nettings AT apache DOT org.

I'm using and developing Lenya because I like XML (and XSLT) a lot, and I'm a huge fan of Cocoon, so Lenya is my natural choice for a web CMS.
