

Tutorials

- *The tutorials on this page are generally not up-to-date wrt Lenya 2.0 and need to be reviewed.* – JörnNettingsmeier <<DateTime(2007-07-30T13:34:04Z)>>

Installation and Setup

- [HowToGentoolInstall](#)
- [HowToLenyaInEclipse](#)
- [HowToLenyaInEclipseDebugger](#)
- [HowToResinInstallation](#)
- [HowToLoggingWithChainsaw](#)
- [LinuxInitScript](#)
- [JcrConfiguration](#) (experimental!)
- [HowToJettyInstall](#)

Developing and Using Publications

- [OverviewLenyaPublication](#)

Basics

These are HOWTOs that you will need for any or at least most websites.

- [HowToContentImport](#)
- [HowToModifyingHTMLStructure](#)
- [Adding a Control to Switch the Site Language](#)
- [OverviewCocoonKnowledge](#) - What you need to know about Cocoon
- [Using Cocoon Forms in a Lenya Publication](#)
- [HowToFormsUsingExternalHandler](#) - A basic approach for a form-to-email gateway
- [HowToXHTMLTemplating](#) - How to set up XHTML Templating in a Lenya Publication
- [MultipleEditAreasHowTo](#) - How to setup multiple edit areas on a page
- [HowToFullyCustomMenus](#)
- [HowToCSS](#) - Tips about how to use CSS for your publication
- [HowToProxyLenyaOnJettyWithApache](#) - i.e., getting your domain <http://www.foo.com> to go to your live home page.

Editors

These are HOWTOs that deal with customizing and/or general usage of editors in Lenya.

BXE

- [HowToEditCustomDoctypesWithBXE](#)
- [HowToEditCustomDoctypesWithBXECSS](#)
- [HowToEditCustomDoctypesWithBXESampleXSLFile](#)

Kupu

- [Customizing HTML markup for images in Kupu](#)
- [Getting Kupu to save your HTML forms properly](#)

FCK Editor

- [HowToIntegrateFCKEditor](#)
- [HowToIntegrateFCKEditor2.0](#)

TinyMCE Editor

TinyMCE is now part of Lenya 2.0. If you want to backport it to Lenya 1.2.x, check out

- ```
svn co http://svn.apache.org/repos/asf/lenya/trunk/src/modules/tinymce
```

and have a look at the [module documentation](#). .

- [HowToInstallTinyMCE3.x](#)

### Firedocs

- [HowToInstallFiredocs](#)
- [MoreInformationsAboutFiredocs](#)

## WebDAV

- [Editing documents with webDAV in the default pub](#)

## Advanced Topics

These are HOWTOs on advanced topics that apply only to websites that need these features.

- [HowToClosedUserGroup](#)
- [HowToDefaultPublicationUsefulChanges](#)
- [HowToMoreExamplePublications](#)
- [HowToExportStaticHTML](#) - How to export static HTML to a specific directory
- [HowToOutsourcePublicationContent](#)
- [HowToSearchLucene](#)

## Tips and Tricks

These are HOWTOs that show how to implement functionality that may not be vital but many will find useful.

- [HowToTableOfContents](#) - How to implement a dynamically generated table of contents on a page.
- [Use an id attribute to the body tag to style multiple sections of your site](#)
- [DebuggingTips](#)

## Performance and Internals

- [HowToPerformance](#)
- [Large\\_number\\_of\\_documents\\_HOWTO](#)

## Access Control

- [Understanding the Lenya Role Concept](#)

## Workflow

- [Implementing a Custom Workflow Action](#)
