

Excluded tests

Everyone welcome to investigate reasons for tests exclusion.

If you are going to do this, please :

1. Send short note about it to harmony-dev@incubator.apache.org list
2. Before test investigation specify 'in progress, <Name>' near module name - this will show that it is under investigation being done by <Name>.

nio_char

In progress [Richard, Andrew]

tests.api.java.nio.charset.ASCCharsetEncoder

tests.api.java.nio.charset.CharsetProvider

tests.api.java.nio.charset.ConcreteCharset - Not a test (ConcreteCharsetTest.java)

tests.api.java.nio.charset.GBCharsetEncoder

tests.api.java.nio.charset.ISOCharsetEncoder

tests.api.java.nio.charset.UTF16BE[{' Charset}]`Encoder

tests.api.java.nio.charset.UTF16[{' Charset}]`Decoder

tests.api.java.nio.charset.UTF16[{' Charset}]`Encoder

tests.api.java.nio.charset.UTF16LE[{' Charset}]`Encoder

tests.api.java.nio.charset.UTF[{' Charset}]`Encoder

prefs

org.apache.harmony.prefs.tests.java.util.prefs.FilePreferencesImplTest – not a bug

This is a platform-dependent test which should be only run on linux. - Richard

regex

no excluded tests

rmi

org/apache/harmony/rmi/ConnectionTest.java

org/apache/harmony/rmi/DGCTest.java

org/apache/harmony/rmi/activation/DefaultParamTest.java

org/apache/harmony/rmi/activation/StartupShutdownTest.java

security

org.apache.harmony.security.tests.java.security.SecureRandom2Test – test failed due to not implemented functionality

org/apache/harmony/security/tests/java/security/KeyStore2Test.java – seems, bug in BC provider

tests/api/java/security/PermissionCollectionTest.java - incorrect test. The output for RI and Harmony is the same (true,true,true,) while test expects other (true,true,false,).
