XML GRAPHICS COMMONS

5 bug fixes committed to SVN, 3 were patches submitted by contributors/

There were no releases this quarter.

The latest release is 1.5 (20 October 2012)

FOP

Mailing list activity is slightly down due to the holiday season, but is starting to pick up again. Some new bugs logged and several patches have been submitted and processed. 46 separate commits in total to SVN. Significant development of note this quarter; work continues on a whitespace management extension, a basic fo:inline-container implementation was finished and changes checkstyle to rules being applied to the codebase.

There were no releases this quarter

The latest release is 1.1 (20 October 2012)

BATIK

Mailing activity remains light, but a couple of bugs have been reported. There were actually 3 commits made by PMC members during this quarter; 1 was a test commit, a 2nd to create a branch for a new feature and a 3rd was a user supplied patch being committed.

There were no releases this quarter.

The latest version is 1.7 (6 January 2008)
