# ReleaseNote471

```
April 2014, Apache Lucene™ 4.7.1 available

The Lucene PMC is pleased to announce the release of Apache Lucene 4.7.1

Apache Lucene is a high-performance, full-featured text search engine library written entirely in Java. It is a
technology suitable for nearly any application that requires full-text search, especially cross-platform.

The release is available for immediate download at:

    http://lucene.apache.org/core/mirrors-core-latest-redir.html

Lucene 4.7.1 includes 14 bug fixes; one build improvement; and one change in runtime behavior: AutomatonQuery.
equals is no longer implemented as "accepts same language".

See the CHANGES.txt file included with the release for a full list of changes and further details.

Please report any feedback to the mailing lists (http://lucene.apache.org/core/discussion.html)

Note: The Apache Software Foundation uses an extensive mirroring network for distributing releases. It is
possible that the mirror you are using may not have replicated the release yet. If that is the case, please try
another mirror. This also goes for Maven access.
