Not Listed?

If your commercial product uses [SpamAssassin](#), and is not listed here, please feel free to edit the page and add details. However, keep it short – preferably just a link – and we reserve the right to edit or even remove whatever's published here (especially if we cannot determine from publically-accessible information that the product *does* use [SpamAssassin](#)).

For fairness, we're trying to keep the items in each category in alphabetical order.
