Dan Kohn

If you have questions about pages I've edited, please post them to users@spamassassin.apache.org. My email is dan@dankohn.com.

More info is at my [homepage](#). I've been using [SpamAssassin](#) since 2001 and can say, without a doubt, that email for me would be unusable without it. With it, I spend maybe 30 seconds a day doing mistake-based training (see [ProcmailToForwardMail](#)) and everything just works.
