SpamFilteringServices

Commercial Vendors Offering Spam Filtering and Email Hosting

Too complex to do it yourself? Would you rather have your email hosted or have a front end spam filtering service clean your email for you, and pass the good email on to your existing server? Here is a list of vendors who provide spam filtering services based on Spamassassin.

Spam Filtering Front End Services

These are services that clean your email for you and forward the good email to your server. That way you don't have to do it yourself. You point your MX record to their servers and all your incoming email goes to them, they clean it, and send it on to you.

- **AllEmail** - is a pop3/pop3s proxy service which filters your mailbox and quarantines spam and virus infected messages. It doesn't require any software installation and is compatible with every e-mail client.
- **Blacknight** - offers a gateway service to business which uses SpamAssassin and other technologies to filter email for spam, viruses, malware and phishing fraud. Also offers hosting with virus and spam filtering.
- **CleanMail Hosted Anti-Spam** - Anti-Spam & Anti-Virus filtering service, uses a wide range of email filters to protect Microsoft Exchange, IMail, Lotus Domino/Notes or any other mail server against all kinds of junk mail containing spam, viruses and phishing attacks.
- **Antispam.ie** - filters inbound and outbound mail at internet level, eliminating spam and malware before it reaches your network. AntiSpam.ie reduces business costs, optimises your network capacity and eliminates the dangers of malicious email.
- **ContentCatcher** - Filtering email for businesses with a personal touch. We use multiple technologies for AntiSpam (including SpamAssassin) and virus detection. Tell us how intrusive or how relaxed you want to be and we will customize our system to fit your needs. We support your users, so you do not have to. Free 30 day trial, month to month Contracts, and customer references that asked us to be references!

Note for Vendors

If your commercial product uses SpamAssassin, and is not listed here, please feel free to edit the page and add details. If it's not obvious that you use SpamAssassin then perhaps you do not want to list your product here.

However, keep it short here; one paragraph or so. This is a place to introduce your services. Go into details on your web pages. The idea here is to provide people who might want to have someone do their spam filtering for them a place to see what vendors offer.

We reserve the right to edit or even remove whatever's published here (especially if we cannot determine from publically-accessible information that the product *does* use SpamAssassin).

For fairness, we'd like to keep the items in each category in alphabetical order.
