## August 2015 Report

### Xerces-J

There was no development activity in the two months since the previous board report. There were a few inquiries about a patch on an old JIRA issue from members of the community who may be willing to help with getting it integrated. We've yet to respond but that might be an opportunity to find some new contributors.

Mailing list traffic has been low; roughly 25 posts on the j-dev and j-users lists since the beginning of June 2015.

No new releases this quarter. The latest release is Xerces-J 2.11.0 (November 30th, 2010).

### Xerces-C

There was no development activity in the two months since the previous board report. There has been little activity since the 3.1.2 release earlier in the year.

Mailing list traffic has been low; roughly 30 posts on the c-dev and c-users lists since the beginning of June 2015.

No new releases this quarter. The latest release is Xerces-C 3.1.2 (March 19th, 2015).

### Xerces-P

Nothing in particular to report. There was no development activity over the reporting period.

### XML Commons

No activity over the reporting period.

### Committer / PMC Changes

The most recent committers were added in February 2015 (Xerces-C) and May 2009 (Xerces-J).

No new PMC members in the last two months. The last two additions to the PMC were in May 2010.

No committers committed changes to SVN in the last two months.

### Apache Project Branding Requirements

The project logo still needs a "TM" to be added to it.
