Releases

0.2-incubating:

Artifact	Description	Download	
clerezza-0.2-incubating-source-release.zip	Apache Clerezza sources	ZIP (MD5)	ASC
clerezza-tdb-distribution.zip	(binary) Apache Clerezza launcher based on Jena TDB	ZIP (MD5)	ASC

Maven:

All Apache Clerezza Modules are also available in the [Maven Repository](#).

Verify your Downloads

You should verify the MD5 checksums of your downloaded archives.

All Apache Clerezza releases are signed. To verify the signature of a release, you have to download the project's [GPG keys](#).

Development Snapshots

The latest development snapshots can be found in the [Apache Snapshot Maven Repository](#).

Current Jena TDB based launchers (binaries) are located [here](#).

Running Apache Clerezza

Refer to [Launching Clerezza](#) for instructions on how to run Apache Clerezza.

Source Code Repository

The Apache Clerezza source code Repository can be viewed [here](#).

To obtain a local working copy execute this command:

```
svn co http://svn.apache.org/repos/asf/incubator/clerezza/
```

License

All Clerezza packages and Source Code is distributed under the terms of [The Apache Software License \(Version 2.0\)](#).
