

KnownBrokenPwuidImplementations

Some implementations of the `getpwuid_r` call are known to have a bug that makes it non-threadsafe.

Currently known to be broken are:

- Linux SSSD NSS module less than 1.5.1
 - RHEL 6.0:
 - See https://bugzilla.redhat.com/show_bug.cgi?id=680367
 - Fixed by upgrading to 6.1 and/or applying <http://rhn.redhat.com/errata/RHSA-2011-0560.html>
- Vintela Authentication Services prior to 3.5.2-80
