

# TriangleHadoopUserGroup

## Intro

Live in the Raleigh Durham area and want to get together and talk Hadoop/Mahout/Zookeeper/Thrift/Cloud Computing?

## Proposal

Let's meet once a month or once every two months, or whatever, and get together and share experiences/code/discussions about Hadoop and cloud computing.

If interested, email Grant Ingersoll (gsingers@a.o - that's apache.org) and if we get enough interested (I know there are at least a few of us here) we can figure out where and when to meet, agenda, etc.
