

Pluto PlutoRelease110Beta1

Pluto 1.1.0-beta1 Release

Info

This is the Pluto 1.1 Beta1 Release Plan. The release is planned for April 2006. Thanks to Zheng Zhong, the Pluto 1.1 build passes all Sun TCK tests, so now we should bundle up a release. There are no show-stopper bugs, but, hey, this is a beta release!

Release Manager

The release manager is Craig Doremus

Issues

1. Coordinating people and making the time to do this release.
2. Update documentation on the web site.

Outstanding Bug Review

See [Jira Issue Navigator](#) for a complete report, which is also detailed in the README

ID	Summary	Component	Prevents Release	Comments
PLUTO-217	Script to package binary release	Build System	No	Done via an Ant build
PLUTO-218	Script to package source release	Build System	No	Done via an Ant build
PLUTO-221-231	Sub-project descriptors referencing basedir break multi-project build	Build System	No	This appears to be a Maven issue
PLUTO-232	Maximize window state does not work properly	Container	No	Fix before 1.1.0 GA
PLUTO-233	Exception thrown if edit or help mode is not supported by portlet	Container	No	Fix before 1.1.0 GA

Preparation Checklist

	Description	Comments	Completed
0.	Announce plan to pluto-dev list		3/14/2006
1.	Review/Resolve Outstanding Bugs		3/14/2006
2.	Review Dependencies and make sure optimal ones have been released.		3/14/2006
3.	Update Release Notes		3/15/2006
4.	Update POM and Dependencies to version 1.1.-beta1*		3/15/2006
5.	Make sure all files have an ASF license header	Done by Carsten Zeigler	3/21/2006
6.	Update site documentation		5/30/2006

- Version numbers need to be changed in all pom.xml files, dist-build.xml, the pluto-portal-driver-config.xml in the pluto-portal module, expectedResults.properties in the portal-testsuite module, environment.properties in pluto-container module and InstallationDependancy.java in the maven-pluto-plugin module.

Point Release Checklist (A)

See also Cutting the Release on Commons [Step-by-Step Guide](#)

	Description	Completed
A1.	Tag distribution in svn: release-1.1.0-beta1	3/20/2006
A2.	Run 'ant -f dist-build.xml' to generate binary distributions	3/20/2006
A2.	Run 'ant -f dist-build.xml src-dist' to generate source distributions	3/20/2006
A4.	Upload test build to cvs.apache.org/www/cvs.apache.org/dist/portals/pluto/v1.1.0-beta1	3/20/2006
A5.	Announce test-build on pluto-dev and pmc@ lists only	3/20/2006

A6.	Post release-quality vote on pluto-dev list	5/2/2006
-----	---	----------

Vote

A7 .	If vote fails (including lack of quorum), remove test-build cvs.apache.org	passed on 5/31/2006
A8 .	If vote passes, update Pluto home page with sidebar and link to this release	5/31/2006
A9 .	If vote passes, deploy JAR to Apache Java-Repository	—
