WSRP4J

Welcome to the WSRP4J Project Wiki Pages

WSRP4J is currently under incubation, sponsored by the Web Services Apache Project. It is expected that the WSRP4J project will graduate from the Incubator into Portals, rather than Web Services.

Project Management

- WSRP4J's Status Reports
- WSRP4J's Todo List

Documentation

- Installation Notes - Notes of problems and workarounds encountered during installation
- Adding a portlet - Instructions for adding a custom portlet to the WSRP provider portlet
- Working snapshots - Zip files containing working snapshots of the build
