Published Articles

For a detailed list of Velocity-related articles, check out the [Velocity](#) section of Java201.com. Articles of special interest are highlighted here. Please feel free to add your favorites to this list. You may also want to view the list of [CommunityArticles](#).

- [Start up the Velocity Template Engine](#) (JavaWorld). A short primer on Velocity and the Velocity Template Language, written by one of Velocity's founders.
- [Client and server-side templating with Velocity](#) (IBM developerWorks) – Well written introduction to Velocity with examples.
- [Migrating a JSP site](#) (onJava.com) – Discusses the migration of the author's web site from JSP to Velocity. Interesting use of a custom servlet and set of custom directives rather than the VelocityViewServlet from Velocity Tools.
- [The REST of the Web](#) (onJava.com) – Interesting case study combining Jython and Velocity.
- [Template-Based Code Generation with Apache Velocity](#) (onJava.com) – Discusses how to use Velocity to generate code based on a source XML representation of classes and data members.
- [Struts-Velocity Integration](#) (IBM developerWorks) – A flexible alternative to JSP in five easy steps.

Books

- **Pro Jakarta Velocity: From Professional to Expert**, Rob Harrop (Apress). Provides a complete overview of Velocity. Contains plenty of examples both of basic usage as well as advanced customization. [amazon.com](#) [bn.com](#)
- **Mastering Apache Velocity (Java Open Source Library)**, Jim Cole, Joseph D. Gradecki (Wiley Computer Publishing). [amazon.com](#) [bn.com](#)
