BuildToolsRelease100

```
Hi,

I was running the needed tasks to get the 1.0.0 release of Apache
MyFaces Build Tools out.

This release is necessary to release myfaces 1.2.3

Please note that this vote concerns all of the following parts:
 1. Maven artifact group "org.apache.myfaces.buildtools" v1.0.0 (only plugins) [1]

The artifacts are deployed to my private Apache account ([1]).

Please take a look at the "1.0.0" artifacts and vote!

Please note: This vote is "majority approval" with a minimum of three
+1 votes (see [3]).

----------------------------------------------
[ ] +1 for community members who have reviewed the bits
[ ] +0
[ ] -1 for fatal flaws that should cause these bits not to be released,
 and why.............
----------------------------------------------

Thanks,
Leonardo Uribe
