

Column

<t:column>

Notes about Attributes

Below is additional documentation about attributes. At some point the [TagLib Documentation](#) will be updated to include these notes.

defaultSorted

- If set to `true`, the data table will be sorted by this column. If set to `false` the table will not be sorted until a sort header is selected.
- The first column with `defaultSorted="true"` will be sorted.

headerstyleClass

- If unset, default to the header style class of the parent Data Table
