4. Ask for vote

Hi,

I was running the needed tasks to get the 1.0.1 release of Apache MyFaces Commons out.

MyFaces Commons project aims to provide non-renderkit-specific utilites that can be used with any MyFaces JSF framework.

For more info about this artifacts take a loot at the site on ([4]).

Please note that this vote concerns all of the following parts:

1. Maven artifact group "org.apache.myfaces.common" v1.0.1 [1]

The artifacts were deployed on nexus repo [1] and to my private Apache account [3] for binary and source packages.

The release notes could be found at [5].

Please take a look at the "1.0.1" artifacts and vote!

Please note: This vote is "majority approval" with a minimum of three +1 votes (see [2]).

```
-----
[ ] +1 for community members who have reviewed the bits
[ ] +0
[ ] -1 for fatal flaws that should cause these bits not to be released,
    and why.....
-----
```

Thanks,
Leonardo Uribe

Release Notes - MyFaces Commons - Version 1.0.1

Bug

- * [MFCOMMONS-1] - id attribute for html components on JSF 1.2 could be set via an rtexprvalue (but not by a ValueExpression)
- * [MFCOMMONS-3] - <mc:exportActionListener> does not work with Facelets
- * [MFCOMMONS-8] - EnumConverter can't fetch target class automatically
- * [MFCOMMONS-16] - EL expressions are to evaluated on validation time for Validator classes on facelets
- * [MFCOMMONS-22] - Detail message for mcv:validateDateRestriction is not clear
- * [MFCOMMONS-24] - Copy myfaces messages from javax.faces.Messages.properties to myfaces commons utils bundle
- * [MFCOMMONS-26] - validateRegExpr doesnt support value binding in patter property

Improvement

- * [MFCOMMONS-4] - Adding Facelets example module to test components
- * [MFCOMMONS-6] - <mc:exporterActionListener> just reads first outputText of content
- * [MFCOMMONS-13] - Update MessageUtils to new implementation in shared
- * [MFCOMMONS-14] - Add new utility class for init parameters WebConfigParamUtils
- * [MFCOMMONS-15] - Move and document some very useful classes from shared to myfaces commons utils
- * [MFCOMMONS-17] - Add facelet function findComponent
- * [MFCOMMONS-18] - Use myfaces builder annotations instead doclets
- * [MFCOMMONS-19] - Create branch for JSF 2.0
- * [MFCOMMONS-21] - Update shale-test dependency with myfaces-test
- * [MFCOMMONS-23] - Test for classes on tld and faces-config.xml requires connection to java.sun.com
- * [MFCOMMONS-25] - Add Facelets Support to myfaces commons

New Feature

- * [MFCOMMONS-12] - Add ConverterBase class to allow create converters that evaluate EL expressions at render time
- * [MFCOMMONS-20] - Add mc:outputClientId component and Facelets EL function

Enjoy!
