

SummerOfCode2010

Google Summer of Code 2010

Important Notes

The application process has not yet started. This page is to record possible projects assuming the ASF and the MyFaces project does participate in this year's summer of code. The actual list of projects will be determined as the application process progresses.

Anyone is free to add ideas to this list. If you are not a MyFaces committer please do not add a committer as a potential mentor for a project unless they have agreed to do so

Title	mentor		JIRA	Description	
HTML 5	matzew		MYFACES-2617	Adding a HTML 5 renderkit for MyFaces
