Presentation for [JavaOne](#)

Using AJAX with Persistence

What is AJAX?

differences

client/server model now

kinds of apps

Server communication patterns/models

RPC

JSON

REST

Web Service

Javascript

Data Model

caching client cache/ server cache?

staleness of data

client performance

reuse what?

Infinite Data Syndrome Avoid fetching the entire database into cache Anticipatory Field Fetch - completion Value List Handler

predictive fetching

heuristics

user experience/users experiences

Craig - wiki Larry - wire protocol Smitha - JSON details
