

TCKChallenges

TCK20 Challenges

Process

These challenges have been filed based on the "First Level TCK Appeals Process" documented at [RunRules](#) for JSR-243.

If a challenge is resolved as integrated, the patch can be acquired from the branches/2.0.1 section of the Apache JDO project. The test from the branches /2.0.1 can be substituted for the challenged test in order to pass the TCK.

Status is one of **pending**, **fixed**, **integrated**, **invalid**
