

Issue Tracking

Issue Tracking

Our project uses [JIRA](#), a Java EE based issue tracking and project management application.

Issues, bugs, and feature requests should be submitted to the following issue tracking system.

As a general advice, server bugs must be added into DIRSERVER, not DIR.
The DIR token should be used for general problems like documentation errors, and general problems not related to the server itself.
Following this advice will help us a lot to improve bug tracking and resolution 😊

Directory Project	JIRA key	Corresponding link to issue tracking system
ApacheDS	DIRSERVER	http://issues.apache.org/jira/browse/DIRSERVER
LDAP API	DIRAPI	http://issues.apache.org/jira/browse/DIRAPI
Shared	DIRSHARED	http://issues.apache.org/jira/browse/DIRSHARED
Studio	DIRSTUDIO	http://issues.apache.org/jira/browse/DIRSTUDIO
General (documentation, site)	DIR	http://issues.apache.org/jira/browse/DIR
Triplesec	DIRTSEC	http://issues.apache.org/jira/browse/DIRTSEC
