

SummerOfCode2005

http://apache.org/images/asf_logo_wide.gif

The Tomcat team was glad to participate in the [Google 2005 Summer of Code](#) project. We proposed three projects, and there was more than enough interest in all three of them. Two projects were pursued: the project descriptions are on the [main Apache Summer of Code](#) wiki page.

We look forward to participating again next year 😊
