ApacheConFastTrack

At ApacheCon US in Austin in October, we have a slot on Thursday afternoon (4:30pm-6:30pm) to introduce podlings to the broader ASF community.

We'll give priority to already accepted and active podlings; but if someone has an Incubator proposal they'd like to discuss and we have space for it, that's cool too. And, if a 'graduated' ASF project wants to get up there, that's fine, too. (Many people don't have a clue what a bunch of TLPs are up to anyway.)

Length: 5 to 15 minutes (depending upon how much time is available)
