

ValidatorResources

Up to [Validator](#)

To anyone who might need it, I gave a presentation on the Validator at the Struts Atlanta group last week. http://sourceforge.net/project/showfiles.php?group_id=49385&release_id=159118

It's also available from the Struts Atlanta Site.

Let me know if you want the powerpoint to swipe any of the slides out of it. Email me at [chuckcavaness at yahoo.com](mailto:chuckcavaness@yahoo.com)

This article contains a section where the Validator framework is used for a Swing application. <http://www.devx.com/Java/Article/29392>
