## **RewriteBasics**

Here we'll cover basics - what do the flags mean, and some intro regular expression stuff. This is not intended to be a complete regex tutorial, since there are better ones available. Just stuff specific to mod\_rewrite. We should also cover the differences between using RewriteRule in httpd.conf vs .htaccess

- RewriteRule
- RewriteCond
- RewriteEngineRewriteOptionsRewriteBaseFlags

- RewriteLog and RewriteLogLevel
- RewriteMap
  "Rewriting" using AliasMatch and Alias.
