

RewriteFlags

Flags modify the behavior of a rule. In this section, we'll show all of the available flags, and give examples of using each in a real-world scenario.

Several flags can be combined, separated by commas, to combine the effect of those flags.

- [C - Chain](#)
- [CO - Cookie](#)
- [E - Env](#)
- [F - Forbidden](#)
- [G - Gone](#)
- [H - Handler](#)
- [L - Last](#)
