Site: <http://www.blackdot.be/>

### About me

I can usually be found on the dev@httpd mailling list and sometimes on the IRC channel. I've been using httpd for a while and I visit a few bb where I tried to help newcomers.

I tried to help where I can but my lack of programming skills in C(++) limits me to the wiki and some general comments on the mailing list 😞

## My Todo

- figure out mod\_ftp vhosting
