

BarCampBudapest

BarCamp unconferences, Apache style

- The next BarCampApache is at ApacheCon EU 2015 in Budapest, Hungary on Wednesday, 30 September November!*

This event is associated with [ApacheCon EU 2015](#) - but everyone in the beautiful city of Budapest is welcome!

 - [Sponsors](#)
 - [Attendees - Register Yourself!](#)
 - [Organizers](#)
 - [So what is The Apache Software Foundation?](#)

Venue

The BarCamp is taking place at the [ApacheCon EU 2015 Conference Venue](#), which is the [Corinthia Hotel, Budapest, Hungary](#) in the Kond room. Directions, public transport options and parking advice can be found on the [hotel and travel page of the conference website](#).

So, what is a BarCamp?

BarCamps are "unconferences", where the schedules are not set in advance of the day, and everyone is welcomed (and encouraged!) to participate. The themes that draw everyone together are known and announced (more on that below), but the schedule is decided based on who turns up, what interesting ideas and topics they bring, and what exciting new things spring up during the course of the day!

Everyone is welcome to attend (but we do ask you register below, so we know how many to expect!). Everyone is welcomed and encouraged to participate, in whatever way they feel best able to. That might be proposing a session, it might be leading one, it might be asking smart questions, it might be by blogging / [tweeting](#) / posting photos, it might be by helping out, or it might just be by telling others about it. However you can get involved, do!

And what is a BarCampApache? How is it different to a normal BarCamp? Do I have to bring a feather?

You don't have to bring a feather, and you don't have to sleep in a teepee! (We tried that once - fun, but very cold at night...)

A BarCampApache is a BarCamp being facilitated by a group of people involved in the Apache Software Foundation. All topics are still welcome however! Because of who are helping organise it, there will be a lot of people around who know a lot about Apache projects / communities / technologies, so there are normally quite a few sessions proposed on those areas. It's not exclusively Apache though, so everyone should come, and especially talk about other things too! We like to hear all about fun new ideas and projects and technologies 😊

This [BarCamp](#) is being hosted alongside [ApacheCon EU 2015](#), running the day after the main conference, BarCampApache will be a dynamic get together open to the public. Like other unconferences, the schedule will be determined by the participants, both Apache and non! We strongly encourage lots of people from Budapest to come along and share their knowledge and ideas, we want it to be a great day of sharing for everyone, not just those at the event. Everyone coming in for the conference is encouraged to come early, it'll be a great day for all!

As usual, the event is free. We do ask that you [sign up in advance](#) though, details below, so we know how many to expect. On the day, come along for 10am and grab a name badge at the registration desk.

This is an ideal opportunity to seek out people of like mind. At a BarCamp, you can talk about anything you think people will be interested in, and it need not be Apache-specific. How about telling us about your favorite project, how to enjoy yourself in Budapest, survival tips for one's first month on an ASF list, why you love your job, why you hate your job, etc. There will be plenty of space to break off and continue discussion with people of like mind.

Since BarCampApache follows on from the main conference, you might want to register for the conference as well. You may also want to consider attending the special events and the free MeetUps that will be held in the evenings after the main conference tracks.

Outline plan of the day

In commons with all [BarCamps](#), we'll be deciding on the exact schedule on the day. So, it's all up to you! Here's the suggested framework. We will fill in the details at the start of play.

Time Slot	Big Room	Small Room
10 am - 10:30 am	Opening - Jean-Frederic Clere	
10:30 am - 10:45 am	Break	Break

10:45 am - 11:15 am		
11:15 am - 11:45 am		
11:45 am - 12:15 pm		
12:15 pm - 1:30 pm	Lunch Break	
1:00 pm to 2:00 pm	Walkabout (Overlaps with the next session)	

What to bring

- Yourself!
- Some ideas on what to talk on
- Either a laptop or a tablet
- Power supply for your internet device
- A 4-way power strip is always popular with others, there are never enough sockets to go around...
- If you intend to show anything, any mac/dvi/hdmi/etc adapters to VGA
- A smile 😊

Sponsors

TBC. If you might be able to help out with the cost of the [BarCamp](#) (especially refreshments), please [ApacheCon Sponsorship Information page](#) for more details

Attendees - Register Yourself!

We ask that everyone planning to come signs them self up in the registration table below, so that we know how many people are coming, and can make sure we have suitable sized rooms available. This page is editable by anyone, so just hit the "Edit" link near the top of the page, scroll down to here and add yourself in!

	Name	Twitter / Apache ID	Any notes (including comments on topics you want to see discussed)
1	jean-Frederic Clere	@jfcclere	tomcat/httpd/proxies.

Organizers

- Jean-Frederic Clere <jfclere [at] apache [dot] org>,
- Nick Burch <nick [at] apache [dot] org>,
- Annie Leroux <aleroux [at] linuxfoundation [dot] org>,
- Lewis John [McGibbney] <lewismc [at] apache [dot] org>
- Melissa Warnkin <ea [at] apache [dot] org>

So what is The Apache Software Foundation?

Established in 1999, The Apache Software Foundation provides organizational, legal, and financial support for a broad range of Open Source software projects, including Apache HTTP Server – the world's most popular Web server software for more than a decade. The Foundation provides an established framework for intellectual property and financial contributions that simultaneously limits contributors' potential legal exposure. Through a collaborative and meritocratic development process, Apache projects deliver enterprise-grade, freely available software products that attract large communities of users. The pragmatic Apache License makes it easy for all users, commercial and individual, to deploy Apache products.

For more information, please see <http://www.apache.org/>
