

# FastFeatherTrackUs07

An extra session track has been added for Thursday for Fast Feather talks. Join us in an intimate setting to hear 10 to 15 minute updates on some of your favorite (or soon-to-be favorite!) projects within the ASF community. Stay for a few talks, or stay all day and get caught up on the exciting, cutting-edge world of ASF projects!

Fast Feather talks focus on our upcoming Incubator and Labs projects, with some of the newest technology and communities at the ASF. They're worth the flight!

See the full [Fast Feather Schedule](#) of talks, which are on Thursday.

---

Interested in meeting like-minded folks, but never submitted a session? Attendees can request an evening BOF [BirdsOfaFeatherUs07](#), and a schedule will be available shortly before the event.
