FelixMeetup

The Felix/OSGi meetup is a free session colocated with http://www.us.apachecon.com/c/acus2009/ApacheConUS09, the meetup will take place on the evening of Tuesday 3rd November. See ApacheMeetupsUs09 for time and place.

It is an informal session for people interested in OSGi technology in general and the OSGi related projects at Apache. Some of the Apache projects are:

- Apache Felix
- Sling
- Apache ACE
- Apache Aries

Program

The program will be finalised on the night. If you have anything specific you would like to present (maximum 15 minutes) or discuss please add it here:

- "How do you distribute and deploy your OSGi applications?" - a short discussion to get an overview of different techniques so they might be added to Apache ACE, with a short introduction by Marcel
- "What is Apache Aries?" - a short description of the Apache Aries project by Jarek Gawor.
- your topic here

We'll also be accepting suggestions for topics on the night if there is enough time.

Suggested Topics

If you have something specific you would like to learn about at the MeetUp add it here:

- *J Aaron is interested in publishing features for Apache Karaf*
- *J Aaron is also interested in better docs for Felix and Sling specifically*
- Bertrand would like discuss osgi.apache.org - it might be good to have a central place that points to the various OSGi-related Apache projects and modules.
- your interest here

Location

ApacheConUS09 2-6 November 2009 (meetup is on the evening of the 3rd) Oakland, CA

Attendees

Please add your name here if you plan to attend.

1. Carsten Ziegeler
2. Felix Meschberger
3. Marcel Offermans
4. Floris Zwarteveen
5. Bertrand Delacretaz
6. Ian Boston
7. Aaron Remick
8. J Aaron Farr
9. Antoine Levy Lambert
10. Jarek Gawor
11. Raymond Feng
12. Paolo Mottadelli
13. Your name here
