Shane Curcuru

Shane serves as Director and VP, Brand Management for the [Apache Software Foundation](#) and tries to provide generally helpful information about [Apache Con](#), both on the [\[\[http://www.apache.org/events/\[website\]\]](http://www.apache.org/events/[website]) and on [Twitter](#) too.

Shane hopes that if you use flickr, you'll use our various groups: [ApacheCon](#) for general pictures of the con, and [ASFswag](#) for pictures that feature t-shirts or other ASF or [ApacheCon](#) branded swag. Be sure to tag your [ApacheCon Pictures](#) photos appropriately, like ApacheConUS2016.

If you've got other ideas for sharing photos or slides, please let us know! Our conference producer, the Linux Foundation, hosts all slides they can get from speakers on each event website, but many speakers also use [SlideShare](#).
