

20051221

Infrastructure:

- vmgump ran into trouble after a kernel update. Many thanks to Noel and Leo for reviving it.
- gump.osuosl.org is still more or less dormant because we couldn't find the time to install a Gump instance there.

Technical:

- Work continues on Gump3. It is slowly and steadily progressing into a codebase that does useful stuff.

Other:

- Bill Barker has been added to the PMC.
- still all Apache committers have access to metadata in svn.
- no releases.
