Name	Organization
Brian Spector	Qredo
Alessandro Budroni	University of Bergen (PhD Candidate)
Kealan McCusker	Qredo
Go Yamamoto	NTT
Stanislav Mihaylov	Qredo
Patrick Hilt	KNEIP
Giorgio Zoppi	RStor Inc.

How to become a committer

You can become a committer by contributing to Milagro. Qualifications for a new committer include:

- **Sustained Contributions:** Potential committers should have a history of contributions to Milagro. They will create pull requests over a period of time or help managing the project.
- **Quality of Contributions:** Potential committers should submit code that adds value to Milagro, including tests and documentation as needed. They should comment in a positive way on issues and pull requests, providing guidance and input to improve Milagro.
- **Community Involvement:** Committers should participate in discussions in a positive way, triage and fix bugs, and interact with users who submit questions. They will remain courteous, and helpful, and encourage new members to join the Milagro community. A keen interest and passion in distributed cryptography and decentralized systems is a must.
