CarstenZiegeler

Hi, I'm **Carsten Ziegeler**. I live in a rainy town called Paderborn, Germany.

I try to follow all those great open source software projects as much as I can. I'm proud to be a member of the Apache Software Foundation. I'm currently on the PMC of Cocoon, Portals and Incubator and from time to time work on Cocoon, Pluto, WSRP4J and Oscar.

If you have time, visit my homepage and increase the counter.

Thanks
