

# GT2006HackatonDay1Notes

## Splitting up core

- [LarsTrieloff](#) and [DanielFagerstrom](#) moved out the flowscript implementation to an own block, and where able to remove the Core's dependency on Rhino.

## Create a Cocoon serializer for the current FOP release

- JeremiasMärki and [LarsTrieloff](#) created <http://issues.apache.org/jira/browse/COCOON-1924> which adds FOP 0.92beta support to cocoon trunk.
